YOU ARE NOT ALONE

The system is the problem, not the people being targeted by it. It is a radical act to bypass the system to help your neighbor directly. This is known as **mutual aid** and it's all about supporting one another, without conditions, rather than letting institutions dictate who deserves support.

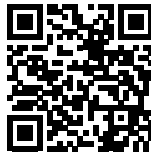

HELP GOES BOTH WAYS

PRINCIPLES OF MUTUAL AID

Everyone deserves love, care, and access to life's necessities.

We recognize that people have different abilities, skills, and needs.

We show up for each other in the times and by the means that we can.

HOW DO YOU GET INVOLVED

Find the overlap and that's your actionable mutual aid.

Connect with your community to find:

-  People who are already doing this work.
-  People who could use your help.
-  People who could help you.

Involve friends, neighbors, family, and even new connections!
